

Welcome to Unity Health Care and Hunt Place Health Center! We are excited that you will be learning with us. We hope to provide you with an enriching learning environment in exchange for your hard work and compassionate care for our patients.

There are many providers at the Hunt Place Health Center, including dentists, social workers, health promoters, and physicians. Our on-site specialty care is composed of gynecology, psychiatry, infectious disease, ophthalmology, and podiatry. The patient population includes mostly low-income, urban, minority patients from the surrounding neighborhood.

Hunt Place is located on 4130 Hunt Pl., NE. Students are able to drive (street parking) or take the Metrorail. Hunt Place is about 2 blocks from the Minnesota Ave. metro stop on the Orange Line. However, the neighborhood can be unsafe in the evening, so plan accordingly. On your first day please arrive between 8:30am and 8:45am and ask the front desk or the security officer to take you to your preceptor.

Hunt Place does have a locker available for student possessions in addition to break rooms and a vending machine. Fast food such as Wendy's, McDonald's, and Subway are nearby.

Be sure to explore the documents available on the student website found at: http://www.unityhealthcare.org/Students/Residents_Students.htm. The resources found on this site will help you understand issues regarding community health in Washington, DC. Another important resource is the DC Area Health Education Center (AHEC) curriculum found on the web at: <http://dcahec.gwumc.edu/education/index.html>. It was designed to help students develop an appreciation and working knowledge of community-oriented primary care, especially as it relates to D.C. and its communities.

Please feel free to contact me if you have any questions, comments, or suggestions. Enjoy your time at Unity.

Sincerely,

Lana Beex

Clinical Rotation Assistant
