

Welcome to Unity Health Care! We are excited that you will be spending your next rotation with us. We hope to provide you with an enriching learning environment in exchange for your hard work and compassionate care for our patients.

I have enclosed a brochure about Unity Health Care, Inc. and some additional information about the communities we serve. Also included is an article by Dr. Fitzhugh Mullan highlighting the unique experience of working in a community health center.

Another important resource is the DC Area Health Education Center (AHEC) curriculum found on the web at: <http://dcahec.gwumc.edu/education/index.html>. It was designed to help students develop an appreciation and working knowledge of community-oriented primary care, especially as it relates to D.C. and its communities.

After you have finished your rotation, we ask that you **complete an online evaluation**. You will receive an email reminder to fill out this brief form. It will help us continue improving the learning experiences we offer at Unity. The online form is available on the Unity website (<http://www.unityhealthcare.org/Students/Evaluation.htm>).

Please feel free to contact me if you have any questions, comments, or suggestions. Enjoy your time at Unity.

Sincerely,

Lana Beex
