

A School-Based Health Center (SBHC) provides comprehensive primary care services in a school year round. There are eight (8) SBHCs in the District of Columbia; the DC Department of Health (DOH) oversees seven (7). A SBHC can serve as a student’s primary health care provider or supplement the services they would normally receive. Each SBHC offers medical, oral, social and mental health services, and education to enrolled students, and to the children of enrolled students. SBHC staff can also provide referrals to specialty care, community providers and other programs that coordinate to ensure every student receives the care they need to lead healthier lives.

SERVICES PROVIDED

PRIMARY AND PREVENTIVE CARE

 (202) 698-1383

EASTERN SENIOR HIGH SCHOOL*
 1700 East Capitol Street, NE
 Washington, DC 20003
 (202) 469-0937

When are SBHCs open and what are the hours?

Hours of operation are Monday through Friday from 8:00am–4:30pm (open during lunch periods). Following the DCPS closure and holiday schedule, SBHCs are open year-round (SBHCs run under a modified schedule during summer school and seasonal breaks if appropriate security measures are available). An on-call physician is available when the SBHC is closed (e.g., from 4:30 p.m. to 8:00 a.m. on weekdays, weekends and holidays) and facilitate emergency room referrals of students as needed.

Who can receive services at a SBHC?

Any student currently enrolled at the high school or the children of students. After graduation, seniors can use the health center through the first week of August; after that, SBHC staff will assist students with transitioning to another health care provider.

Can I still go to my normal doctor's office?

Yes. SBHCs can either supplement existing services received from a student's primary health care provider or serve as a student's regular health provider. SBHCs offer the convenience of a doctor's visit without missing an entire day of school or requiring a parent to miss work. SBHC staff communicate with your regular doctor to keep them informed.

How do I sign up?

When you enroll in school, you can receive SBHC enrollment forms from the school's registrar. Forms are also available online at <http://doh.dc.gov/service/school-based-health-centers>. Students 14 years of age and older do not need parental consent to use the SBHC for confidential services. Services may include family planning, pregnancy testing, STD and HIV testing and treatment, substance abuse concerns and mental health concerns. Please consult the Minor Consent Law for more information.

Is it true that students don't pay?

YES! Students DO NOT directly pay for services. Instead, if a student is insured, the insurance may be billed where applicable. We do not send bills or letters home for confidential services. A case manager is able to help students apply for insurance if they lack it.

What if there's an emergency?

If a student needs to be seen at a SBHC for either confidential services or an unlikely emergency situation, enrollment will be done by SBHC staff where applicable. Parents/Guardians will be contacted for verbal approval in case of an emergency and students seeking confidential services will need to self-enroll.
